## Summary

I'm a passionate junior software developer with 2+ years of hands-on experience in front-end development, specializing in building dynamic and responsive web applications using the Angular framework and Kendo UI. I've tackled complex front-end challenges, optimized UI/UX for seamless user experiences, and contributed to the successful delivery of key features in projects like Yellowstone. My focus on clean, efficient code, responsive design, and continuous learning drives me to solve problems and improve web functionality. Key skills include Angular, Kendo UI, JavaScript, TypeScript, HTML, CSS, and UI/UX optimization.

## Experience

**Junior Software Engineer | 07/2022 - Present | CI Global Solutions | Chennai, Tamilnadu**

- Developed dynamic web applications using Angular and Kendo UI, improving operational efficiency for clients.
- Worked on Yellowstone, a multi-module web application with features like Reservation management, Activity tracking, and Fixed Asset Management With Multi-language support.
- Enhanced UI/UX for the Employee Scheduling and Time-Off Request modules, leading to a 15% increase in user satisfaction.
- Collaborated in an agile team to deliver complex projects, ensuring timely completion and high code quality.
